Argentina • Buenos Aires • [tomasruiz.dev@gmail.com](mailto:tomasruiz.dev@gmail.com) • [Website](#)

### Education

**University Of Buenos Aires (UBA)**  
Computer Science

Buenos Aires, Argentina  
2023 - 2028

### Experience

**Scale AI**  
**Team Leader**

Remote  
February 2025 – Present

- Lead and manage a team responsible for reviewing and assessing AI-generated outputs, ensuring accuracy, relevance, and compliance with project guidelines.
- Supervise and refine task quality by identifying areas for improvement, implementing best practices, and maintaining consistency across evaluations.
- Develop and execute strategies to optimize workflow efficiency, enhance team performance, and streamline processes for better accuracy and productivity.

**Scale AI**  
**AI Model trainer & Quality Analyst**

Remote  
March 2024 – Feb 2025

- Annotated and evaluated AI-generated responses in NLP and machine learning projects.
- Analyzed and improved prompts to optimize model accuracy and coherence.
- Used SQL and Python to validate data and enhance review processes.

**Ferraro Camacho**  
**Full Stack Developer**

Buenos Aires Argentina  
April 2023 – March 2024

- Developed a comprehensive system for ANCAP, a leading oil company in Uruguay, using PHP, JavaScript, jQuery, Bootstrap, Twig, and Symfony.
- Optimized code, reducing data processing time by 30% and significantly boosting operational efficiency.
- Collaborated with cross-functional teams to integrate systems and enhance software architecture.

**Freelance**  
**Full Stack Developer**

Remote  
2019 – April 2023

- Designed and developed intuitive, visually appealing web interfaces for a variety of clients, significantly enhancing user engagement.
- Collaborated directly with clients to understand their unique needs and deliver tailored solutions.
- Utilized prototyping tools such as Figma to create innovative and functional user experiences.
